

RUN WITH RELIABILITY

MERITOR® ALUMINIUM WHEELS

Proven performance and durability from a global leader

At Meritor we know what it takes to put heavy duty vehicles on the road and keep them there. For over 100 years, our customers have relied on us to provide the axle and braking solutions they can depend on.

Introducing the all-new Meritor Aluminium wheel range. Tested and proven to meet exacting Meritor standards, this durable lightweight range of alloy wheels build on our commitment to keep our customers moving. Run with the Bull.

Meritor Aluminium Wheel Advantages

- Rigorously tested to exceed SAE J267 standards for proven reliability
- Additional passivation layers for extra protection against tarnish and corrosion
- Cold flow formed after forging process for greater strength and lighter designs
- Available in standard machined finish or high quality mirror polish
- Suits common truck and trailer applications

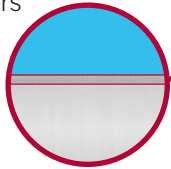

MERITOR ALUMINIUM WHEELS

A range of lightweight wheels made to take you the extra mile.

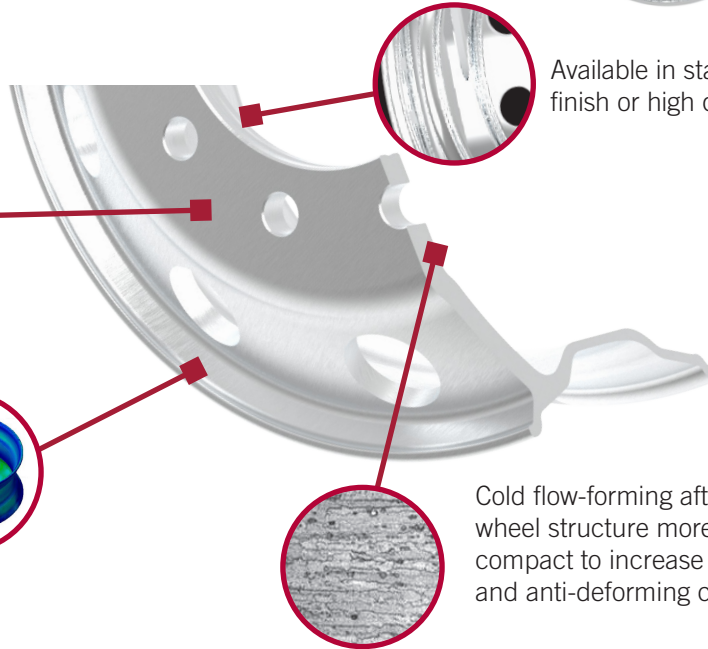

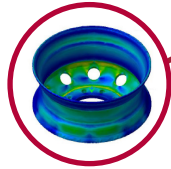

FEATURES AND BENEFITS

Additional passivation layers protect the wheel finish and surface, maintaining a clean appearance for longer

Lightweight, optimised design increases payload and improves ride and fuel efficiency

Available in standard machined finish or high quality mirror polish

Cold flow-forming after forging makes wheel structure more uniform and compact to increase the wheel strength and anti-deforming capacity
