BULLS EYE AUGUST 2017

Q PRODUCT IN FOCUS - MDP3000 Series Brake Pads

Meritor M520 friction material provides:

- Excellent braking performance in high temperatures over 500 degrees
- Consistent and reliable brake performance
- Lower operating costs
- Reduced levels of disc wear
- North American and European applications
- Shear strength exceeds the industry standard
- A long life product manufactured to the highest standards
- Supported by the one year/unlimited mileage aftermarket warranty

ECE R90 Certification

Quality is always at the forefront of Meritor's philosophy. All MDP3000 Series pads are ECE R90 certified, according to the VCA (Vehicle Certification Agency) and ECE R90 requirements.

MERITOR

PRODUCT IN FOCUS - MDP3000 Series Brake Pads

Advantages

- Manufactured with ECE R90 approved M520 material
- Suits BPW caliper # TSB3709/TSB4309
- Unique back plate design
- Replaces Trade Number 29228
- Replaces OE# 0509290130
0980107570
0980107960
0980107971

MDP3288K

Technical Features

- Every brake pad is hard marked "Meritor" to ensure permanent traceability
- Unique MDP3000 part numbering MDP3 + last 3 digits of WVA number "K" suffix indicates fitting kit included
- Exclusive Meritor M520 friction material
- Every pad UNECER90 approved
- Manufacturing batch/date code away from caliper contact area to prolong traceability
- Manufactured from premium grade materials using state of the art casting and machining facilities to meet Meritor's exacting quality and engineering standards

EMPLOYEE PROFILE - *SIMERPAL SINGH*

Role at Meritor: Quality Assurance Administrator ***Year Joined: 2014***

What is your background in QA?

With my qualification in Automotive Technology, I gained employment with Meritor's Aftermarket division in Derrimut in 2012. After acquiring skills and experience, I was offered the position of Quality Assurance Administrator in 2014, based at Meritor Truck in Sunshine. The position has been a great opportunity for me to enhance my existing skills and experience. The warm, healthy and friendly environment at Meritor Australia has helped me to become successful in this role.

What is your biggest challenge within this role?

The biggest challenge in the role is to ensure all Quality Assurance processes are put in place and adhered to as per the requirements. With proper processes, we ensure that all warranty claims are valid and processed within the warranty time frame. In an ongoing role such as this, I analyse data to identify areas for improvement in the quality system.

What are your interests outside work?

Outside work I enjoy watching sports, solving puzzles, spending time with family and travelling.
